## ABOUT THE GREATER HOUSTON PARTNERSHIP

The mission of the Greater Houston Partnership is to make Houston one of the world's best places to live, work and build a business. The Partnership works to make Houston greater by promoting economic development, foreign trade and investment, and by advocating for efficient and effective government that supports, rather than impedes, business growth. The Partnership also convenes key stakeholders to solve the region's most pressing issues.

The Partnership was formed in 1989 in a merger of the Greater Houston Chamber of Commerce, the Houston Economic Development Council and the Houston World Trade Association. Today, the Partnership serves the 12-county greater Houston region and represents a member roster of over 950 businesses and institutions. Members of the Partnership account for one-fifth of all jobs in Houston. They engage in various initiatives, committees and task forces to work toward our goal of making Houston greater.

# THE HOUSTON REGION

## THE FACTS SPEAK FOR THEMSELVES

Houston Facts has presented unvarnished information about the Houston region since 1959, and its predecessor publications—under different names, but with the same objective—date back to 1906. Over the decades, Houston Facts has grown well beyond its original four pages so that we could expand the range and depth of coverage, bringing you more information about parks, museums, schools, living costs, the regional economy and a host of other topics. It has evolved into a concise almanac for the Houston region. Corporate planners, market analysts, students, relocation and site selection consultants, real estate professionals, government agencies and myriad others turn to it for authoritative information on this region.

Of course, we believe the Houston region is one of the nation's most attractive major metropolitan areas—an outstanding place to live, work and build a business. We would like you to share that view. But we won't try to persuade you. The facts need no embellishment.

Houston Facts. Straightforward information from hundreds of sources to answer questions frequently asked about the Houston region.

You may find in these pages facts that you never knew about the Houston region. For example:

Nearly 1.9 million Houstonians, or **ROUGHLY ONE IN FOUR**, were born outside the U.S.

Houston has the **THIRD LARGEST** number of **FORTUNE 500 COMPANIES** in the nation.

If Houston were a country, it would rank as the **22<sup>ND</sup> LARGEST ECONOMY IN THE WORLD**—exceeding Argentina and Belgium's Gross Domestic Product.

Houston leads the nation in exports with **\$180.9 BILLION IN GOODS AND COMMODITIES** sent abroad last year.

## HOUSTON FACTS

Current Facts On The Nation's Seventh Largest City

**IMPLOSION**—opposite of explosion—means "bursting inward." This describes Houston's phenomenal growth. Population is—and historically has been—pouring into Houston. The world worries about a population explosion; Houston prospers from a population implosion. Vigorous young families, a wave of new wealth in diverse talents and living energies, continue to invade Texas Gulf Coast. They find a warm welcome in Houston.

## Geography

**THE HOUSTON-PASADENA-THE WOODLANDS METROPOLITAN STATISTICAL AREA (MSA)<sup>1</sup> CONTAINS 10 TEXAS COUNTIES:**

Within these 10 counties are 125 incorporated cities and 37 Census Designated Places (CDP).<sup>2</sup>

The county seat or administrative center of Harris County is the City of Houston.

Harris County contains the bulk of the city in addition to all or part of 34 incorporated cities and 12 CDPs.

Small portions of the City of Houston spread into adjacent Fort Bend and Montgomery counties.

The Office of Management and Budget (OMB) delineates the official boundaries for all metropolitan statistical areas (MSAs). All data in this issue of Houston Facts reflect trends for the 10-county MSA unless otherwise stated.

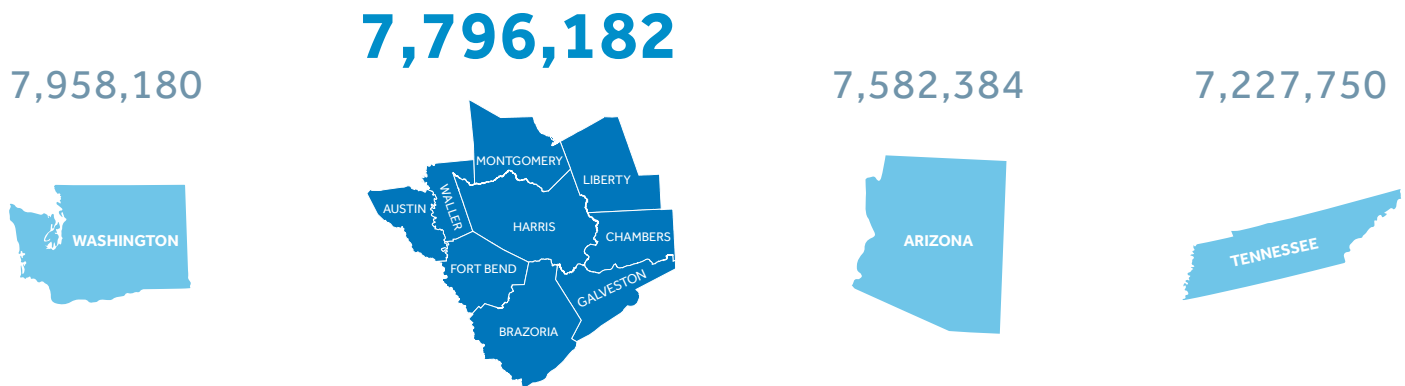

<sup>1</sup> The longer title is shortened to "Houston MSA," "metro Houston," "Greater Houston," "Houston area" or simply "Houston" in Houston Facts.

<sup>2</sup> A Census Designated Place functions like a city or town but is not incorporated.

## 10-County Houston MSA Population

If metro Houston were a state, it would have the 14th largest population in the U.S.

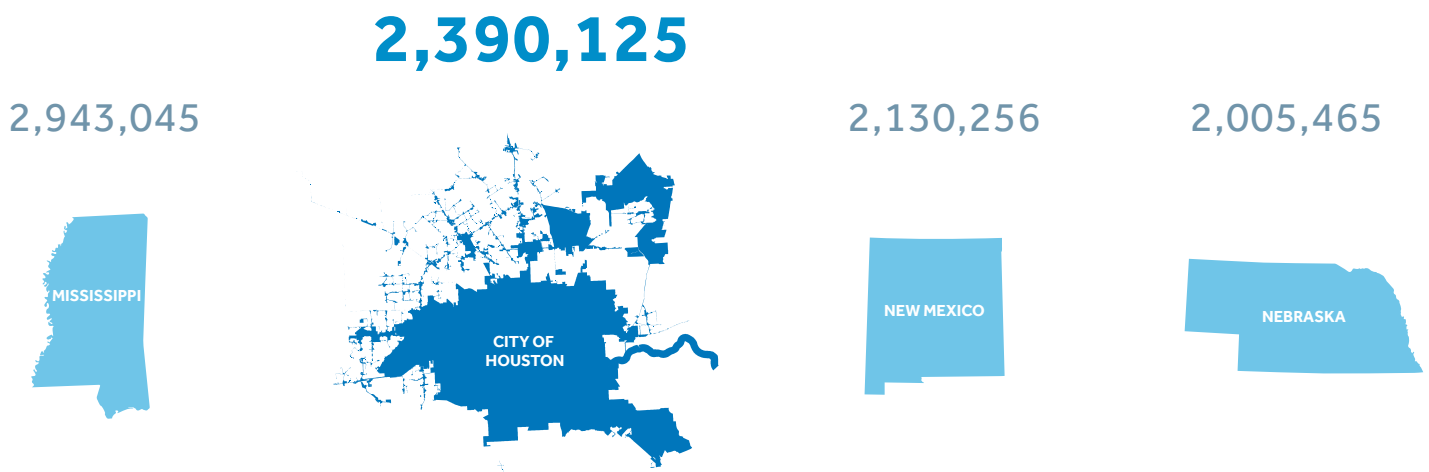

## Harris County Population

If Harris County were a state, it would have the 25th largest population in the U.S.

## City of Houston Population

If the City of Houston were a state, it would rank 36th in population in the U.S.

## Area

**The 10-county Houston-Pasadena-The Woodlands Metropolitan Statistical Area (MSA)** covers 8,838 square miles of land. If the MSA were a state, it would rank as the 46th largest, behind Vermont, New Hampshire, but ahead of New Jersey, Connecticut, Delaware, and Rhode Island.

**Harris County** covers 1,707 square miles, enough space to fit the cities of Austin, Boston, Chicago, Dallas, New York City, and Seattle with room still to spare.

At 641 square miles, the **City of Houston** is larger in area than the cities of Chicago, Dallas, Los Angeles, New York, Phoenix, and San Diego.

## Economy

If the MSA were an independent nation, it would rank as **the world's 22nd largest economy**, behind Switzerland (\$884.9) and Poland (\$809.2 billion) but ahead of Argentina (\$646.1 billion) and Belgium (\$644.8 billion), according to the World Bank.

The U.S. Bureau of Economic Analysis estimates the Houston-The Woodlands-Sugar Land MSA's Gross Domestic Product (GDP) at **\$697.0 billion in '23**, making it the seventh largest U.S. metro economy.

**If Houston were a state, its GDP would rank 14th**, behind Massachusetts (\$736.2 billion) and Virginia (\$719.9 billion) but ahead of Michigan (\$673.8 billion) and Colorado (\$529.6 billion).

# HOUSTON ECONOMY

Houston's economy remains one of the largest and most diverse in the nation. Since April '20, the region has added more than 635,400 jobs, bringing total employment to 3.5 million as of April '25. The unemployment rate stood at 3.9 percent, consistent with a tight labor market.

This expansion reflects more than a recovery from the COVID-19 pandemic. Continued job growth has been supported by national economic momentum, strong global trade ties, rising corporate investment, and sustained population growth.

Several key trends help explain the region's ongoing economic performance:

**Strong U.S. economic growth:** Since April '20, the nation has added over 29.0 million jobs, 8.4 million more than it lost in the pandemic. U.S. gross domestic product has grown nearly 25 percent since then, adjusted for inflation. As of April '25, the nation's unemployment rate has tracked 4.2 percent or lower for 41 consecutive months. It hasn't tracked that low for that long since Richard Nixon was President.

**Close ties to the global economy:** Houston exports topped \$180.9 billion in '24, the second highest level on record. The Houston-Galveston Customs District ranked first in the country in volume (432.6 million metric tons) and fourth in value (\$376.3 billion) in '24. The Houston Airport System handled a record 13.1 million international passengers in '24.

**Increased corporate activity:** Over 1,400 companies have announced relocations, expansions, or start-up operations in the region since '21, with more than 250 of these projects involving foreign-owned companies.

**Logistics and industrial growth:** Developers have added over 215 million square feet of warehouse/ industrial space since '16. Container traffic through the Port of Houston has roughly doubled over the same period. The Port set a record last year with 4.1 million total containers handled.

**Sustained population growth:** Over 450,000 people moved to the metro area between April '20 and July '24, drawn by employment opportunities, affordable housing and quality of life. The region's population is expected to surpass 8.0 million residents by the end of the decade.

**Strong sense of community:** According to the 44th Annual Kinder Houston-Area survey, 80 percent of respondents identified as Houstonians, including nearly two-thirds of those who moved to the region as adults. More than 80 percent said Houston was a better place to live compared to other major metros, with many saying that economic opportunity and the low cost of living are the best things about living here.

## International Business

Houston is the base of operations for the international oil and gas exploration and production industry, as well as for many of the nation's largest international engineering and construction firms.

A key center for international finance, Houston leads the Southwest U.S. with 18 foreign banks from 10 nations.

Houston's economy is deeply tied to global trade and foreign investment.

- Trading relationships with 200+ countries.
- The Houston/Galveston Customs District handled 353.7 million metric tons in exports, valued at \$251.2 billion in '24, according to U.S. Census Bureau Foreign Trade Division data.
- Exports accounted for 66.7 percent of the total trade value.
- Houston has one of the largest consular corps in the nation with 90 career or honorary consulates, according to the U.S. State Department.

- Houston is home to 11 foreign government trade and commercial offices, as well as 41 active non-governmental foreign chambers of commerce and trade associations.
- Houston has 19 sister-city relationships promoting business opportunities across six continents: Asia (9), Europe (6), North America (1), South America (1), Africa (1) and Oceania (1).

In '24, over 80 foreign-owned firms from 30 countries announced or completed new projects in metro Houston, according to the Partnership's New Business Announcements database. Those projects stretch across 14 different industry clusters and represent at least \$277 million in capital investments. That is likely a significant underestimate since many firms did not disclose the value of their investments.

## OFFICE

At the start of '25, Houston's office market showed a modest rebound, with 260,703 square feet of net absorption following a weak '24. Despite the improvement, elevated vacancy and availability rates persist—especially in older buildings—highlighting the ongoing challenge of oversupply and limited demand growth.

Gross asking rents held steady at \$28.74 per square foot, unchanged in real terms for the past decade. New construction activity remains limited.

## INDUSTRIAL

At the start of '25, Houston's industrial market showed signs of cooling after several years of rapid growth. Vacancy rose to 6.8%, up from a five-year low of 5.0 percent in late '22, as new supply continued to outpace leasing demand. Just 863,000 square feet of space was newly leased in Q1/25—down from nearly four million the previous quarter and far below the 18.5 million peak in Q3/21.

### AVAILABLE SPACE

# 77.2

million sq. ft. listed. Includes vacant, sublet, and expected-to-be-vacated space

### CONSTRUCTION ACTIVITY

- **16.7 million sq. ft.** under construction (Q1/25)
- Down from 36.2 million in late '22
- Reflects rising interest rates and softer demand

### ASKING RENTS

- **\$9.69 per sq. ft.** average triple net (NNN) in Q1/25

- Up from \$9.11 (Q1/24) and \$8.05 (Q1/23)
- Rents have increased 33% over five years

## RETAIL

Houston's retail market remains one of the city's most stable commercial sectors, buoyed by population growth and a return to in-person shopping. Vacancy edged up to 5.4 percent, still low by historical standards. Retailers leased 1.7 million square feet of space in the first quarter of '25, a slight slowdown from late '24. Just 159,000 square feet was newly occupied—the lowest quarterly total in more than five years.

- Up from \$20.70 (Q1/24) and \$19.63 (Q1/23).
- Gradual rent growth over time

## SINGLE-FAMILY

Houston's single-family housing market showed modest growth in early '25, with 18,519 homes sold through March—a slight 0.2 percent increase from the same period in '24. A brief dip in mortgage rates helped boost activity, though rising rates in April may slow momentum.

## MULTIFAMILY

Houston's multifamily market held steady in early '25, supported by sustained demand and slower construction activity. Occupancy and rents both rose slightly year-over-year, with Class A properties driving most of the growth. Compared to other major Texas metros, Houston stands out for maintaining positive trends in both rent and occupancy. Rents remain competitive—averaging 11–12 percent lower than in Austin and Dallas/Fort Worth. While markets like Austin have seen notable rent declines, Houston's steady demand and limited new supply have helped sustain performance, particularly among higher-end units.

## Health Care and Social Assistance

Houston's health care industry is anchored by the Texas Medical Center, the largest medical complex in the world, and supported by major medical hubs in surrounding areas such as Sugar Land and The Woodlands. Collectively, these centers offer a wide range of advanced care in fields such as oncology, cardiology, neurology, and organ transplantation.

The sector employs 435,220 individuals and serves patients from both domestic and international markets. In addition to its core medical services, the industry contributes to regional growth in research, biotechnology, education, real estate, and professional services.

Biotech and Life Sciences

The Houston region is a growing hub for biotechnology and life sciences, with activity spanning medical research, device manufacturing, and health innovation. The region is home to more than 28,000 professionals working across areas such as cancer treatment, genomics, biomedical engineering, and health technology development.

Campuses across the Houston region contribute to this growth. The Texas Medical Center includes institutions engaged in both clinical care and research, while TMC Innovation Factory

supports early-stage companies focused on commercializing medical technologies. Adjacent to these efforts, TMC Helix Park is under development as a 37-acre life sciences complex intended to foster collaboration between academic, industry, and commercial partners.

There are 625 establishments focused on manufacturing computers, electronics and electrical equipment, employing 22,433 workers. The region continues to innovate and build its tech manufacturing capacity with a large AI server production facility opening in '26.

CHEMICALS

The Houston region is home to 694 chemical plants, employing 42,865 people or 18 percent of Greater Houston's total manufacturing in '24, according to the Texas Workforce Commission.

The region accounts for 41.0 percent of the nation's overall base petrochemicals manufacturing capacity. Base petrochemicals are the raw materials for producing some of the more important plastics and resins. The Houston MSA also dominates U.S. production of three major resins, producing 39.6 percent

## Energy

Houston is a global center for energy, serving as a hub for exploration and production, transmission, marketing, service, trading, supply, and offshore drilling and technology. The region is home to thousands of energy-related firms operating across the full value chain.

In addition to its established strength in oil and natural gas, Houston plays a growing role in the energy transition, with increasing activity in carbon capture, utilization and storage (CCUS), battery storage, wind, solar, methane management and other low-carbon technologies.

## Aerospace and Aviation

Houston has a long history in aerospace and aviation, beginning with the establishment of Ellington Field in 1917 and the opening of the Houston Municipal Airport Terminal in 1940, now preserved as the 1940 Air Terminal Museum. The region's national significance was further cemented with the development of NASA's Johnson Space Center in the 1960s, which continues to serve as a central facility for U.S. human spaceflight operations.

Today, the region supports a growing commercial aerospace sector. The Houston Spaceport at Ellington Field is home to companies such as Axiom Space and Intuitive Machines, focused on space exploration and lunar technologies. Efforts to advance sustainable aviation are also underway, including partnerships involving Airbus to explore hydrogen fuel infrastructure at George Bush Intercontinental Airport.

### HOUSTON SPACEPORT

Located at Ellington Airport, 18 miles southeast of downtown, Houston Spaceport became an FAA-licensed spaceport in 2015. As one of only 10 such sites in the U.S., it plays a growing role in Houston's commercial aerospace ecosystem. Key tenants include companies focused on space station development, lunar lander manufacturing, mission operations, and next-generation spacesuit systems. The Spaceport's ongoing expansion includes new facilities, infrastructure improvements, and workforce training partnerships.

## Innovation

Houston's technology and innovation sector continues to expand, supported by established strengths in energy, life sciences, aerospace, and logistics. The region is home to 154,905 tech workers representing 4.4 percent of the region's workforce, according to CompTIA. In addition to dedicated innovation districts such as The Ion, there are 7,832 tech-related firms and more than 1,900 venture-backed startups.

These companies have received \$10.1 billion in venture capital funding over the last five years, including \$1.8 billion in '24, according to the financial database Pitchbook. In '24, the most heavily invested industry for VC funding in Houston was Energy, which received \$716.2 million across 25 deals. Health Care followed with \$385.4 million across 68 deals, and Information Technology came in third with \$385.2 million in funding across 79 deals.

## Local Council of Governments

The Houston-Galveston Area Council (H-GAC) is a regional council of governments in the 13-county Gulf Coast planning region. Organized in 1966, H-GAC is overseen by 36 elected officials representing 13 counties (Austin, Brazoria, Chambers, Colorado, Fort Bend, Galveston, Harris, Liberty,

Matagorda, Montgomery, Walker, Waller and Wharton), 177 cities and 84 school districts. H-GAC's regional programs focus on community and environmental planning, data tools and resources, disaster planning and recovery, transportation planning, public safety, workforce,

and economic development. As one of the country's largest councils of governments, H-GAC provides a forum for jurisdictions of all sizes to solve regional issues, identify and prioritize funding opportunities, and analyze trends and conditions affecting the region.

## Elementary and Secondary Education

The Houston MSA contains 64 independent school districts (ISDs) and 43 state-approved charter management organizations (CMOs). In fall '24, public schools in the Houston metro area enrolled nearly 1.3 million students, almost one in four school children in Texas. The Houston Independent School District (HISD) is the ninth-largest public school system in the nation and the largest in Texas. In the '23- '24 school year, HISD operated 274 campuses and enrolled more than 175,000 students.

## Higher Education

Colleges and universities in the Houston area enrolled nearly 443,000 students across 33 academic institutions in fall '24, according to the Texas Higher Education Coordinating Board. Community college students accounted for 47.0 percent of enrollment, while four-year institutions and professional and medical students accounted for 53.0 percent in '24. Houston benefits from three Tier I research universities: Rice University, the University of Houston, and Texas A&M University. These institutions have the highest ranking under the Carnegie classification system for research activity.

# INFRASTRUCTURE

## Utilities

### ELECTRICITY AND NATURAL GAS

Headquartered in Houston, CenterPoint Energy is an energy delivery company engaged in electric transmission and distribution, power generation, and natural gas distribution. The company plans to invest more than \$21 billion in Texas electric and gas systems from '25 to '30.

CenterPoint Energy's Houston service area by the numbers in '24:

- Delivers electricity to 2.8 million customers across a 5,000-square-mile area via 3,900 miles of transmission and over 55,000 miles of distribution lines.
- Owns and operates over 2,200 miles of transmission right-of-way, including more than 30,000 transmission towers.
- Peak electricity demand in Houston is projected to rise from 21 to 31 gigawatts by '31.
- The 2026–2028 Systemwide Resiliency Plan includes substation hardening, undergrounding lines, stronger poles, cable modernization and more to improve storm resilience.

### TELECOMMUNICATIONS

Houston is served by seven area codes: 281, 346, 409, 621, 713, 832, 936, and 979, five of which overlap. The newest area code, 621, took effect in January '25.

- The Public Utilities Commission of Texas (PUC) has certified 270 competitive local exchange carriers, or CLECs, to provide local phone service in the state.
- The Texas PUC has registered 176 active long-distance Interexchange Carriers.

### WATER

The City of Houston is the regional water provider for Harris County and portions of three surrounding counties.

#### WATER RIGHTS

Access to over

# 1.2B

### RAILROADS

The Houston area is served by BNSF Railway Company, Kansas City Southern Railway Company, and Union Pacific Railroad Company. Businesses along the Houston Ship Channel are served by the Galveston Railroad, Port Terminal Railroad Association, and Texas City Terminal Railway Company.

Amtrak provides passenger service three times per week in Houston via the Sunset Limited route that travels from New Orleans to San Antonio and Los Angeles.

### INTRACOASTAL WATERWAY

The Texas portion of the Gulf Intracoastal Waterway stretches 379 miles. The main channel is 12 feet deep and 125 feet wide. The entire Gulf Intracoastal Waterway spans approximately 1,100 miles from

Brownsville, Texas, to St. Mark's, Florida. According to '22 data, Texas' portion of the Gulf Intracoastal Waterway facilitates the transportation of 80 million tons of freight annually.

### FREEWAYS, HIGHWAYS, AND TOLL ROADS

There are 3,448 centerline miles and 11,861 lane miles of freeways and expressways in operation, according to the Texas Department of Transportation (TxDOT). The Houston District includes Brazoria, Fort Bend, Galveston, Harris, Montgomery, and Waller Counties.

Corridors: Houston's major thoroughfares include Beltway 8, Fort Bend Tollway, Grand Parkway 99, Hardy Tollway, I-10, I-45, I-610, SH 6, SH 146, SH 225, SH 288, US 59/I-69, US 90, US 290, and the Westpark Tollway.

In '24, Port Houston hit a new record  
for container traffic, handling 4.1  
million total twenty-foot-equivalent  
containers units (TEUs) including 3.4  
million loaded units.

The region's containerized exports  
reflect its industrial base. Plastics and  
resins, chemicals and machinery, and  
electronics and appliances accounted  
for over two-thirds (66.9 percent) of  
all container exports via Port Houston.  
Containerized imports reflect the  
needs of local consumers and  
industry, with machinery, appliances,  
electronics, retail consumer goods,  
construction hardware and materials,  
and home furnishings representing  
most (56.7 percent) of the total.

The Port of Houston traded with  
216 countries in '24. Of those, trade  
with 42 countries exceeded one  
billion dollars each while trade with  
48 additional countries exceeded  
\$100 million. The port's top trading  
partner by value was China and by  
weight is Mexico.

## HOUSTON SHIP CHANNEL

The Houston Ship Channel, a 52-mile inland waterway, connects Houston with the sea lanes of the world. Its turning basin is eight miles east of Houston’s central business district.

Most of the channels have a minimum width of 530 feet and a depth of 45 feet at mean low tide.

More than 330 public and private terminals, owned by more than 150 companies, line both sides

of the channel and serve one of the world’s largest petrochemical industrial complexes.

## Air Transportation

Houston is an international air gateway to the southern United States and Latin America. In '15, Hobby Airport added direct flights to Mexico, making Houston the only city in Texas with two international airports. The Houston Airport System (HAS) has received high honors at the Skytrax 2025 World Airport Awards ceremony. Both William P. Hobby and George Bush Intercontinental ranked among the World's Top 100 airports, claiming No. 27 and No. 33, respectively. They were the first- and third-highest ranking U.S. airports in that category.

# LIFE IN HOUSTON

## Cost of Living

### HOUSTON RANKS AS 2ND MOST AFFORDABLE METRO

Source: Cost of Living Index, Council for Community and Economic Research (C2ER)

Houston's living costs are 5.8 percent below the U.S. average and 29.7 percent below the average of the nation's 20 most populous metropolitan areas.

Housing costs in Houston are 20.8 percent below the U.S. average

and approximately 61.7 percent below the average for the nation's 20 most populous metro areas. Excluding the two most expensive housing markets—New York and San Francisco—Houston's housing costs are 56.8 percent below the major metro average.

## Weather

Houston's weather is characterized by hot and humid summers, mild winters, and abundant sunshine throughout the year. Average highs reach the 90s°F during the summer, while winters are relatively short and cool, with temperatures rarely dipping below the 40s°F. Rain is fairly

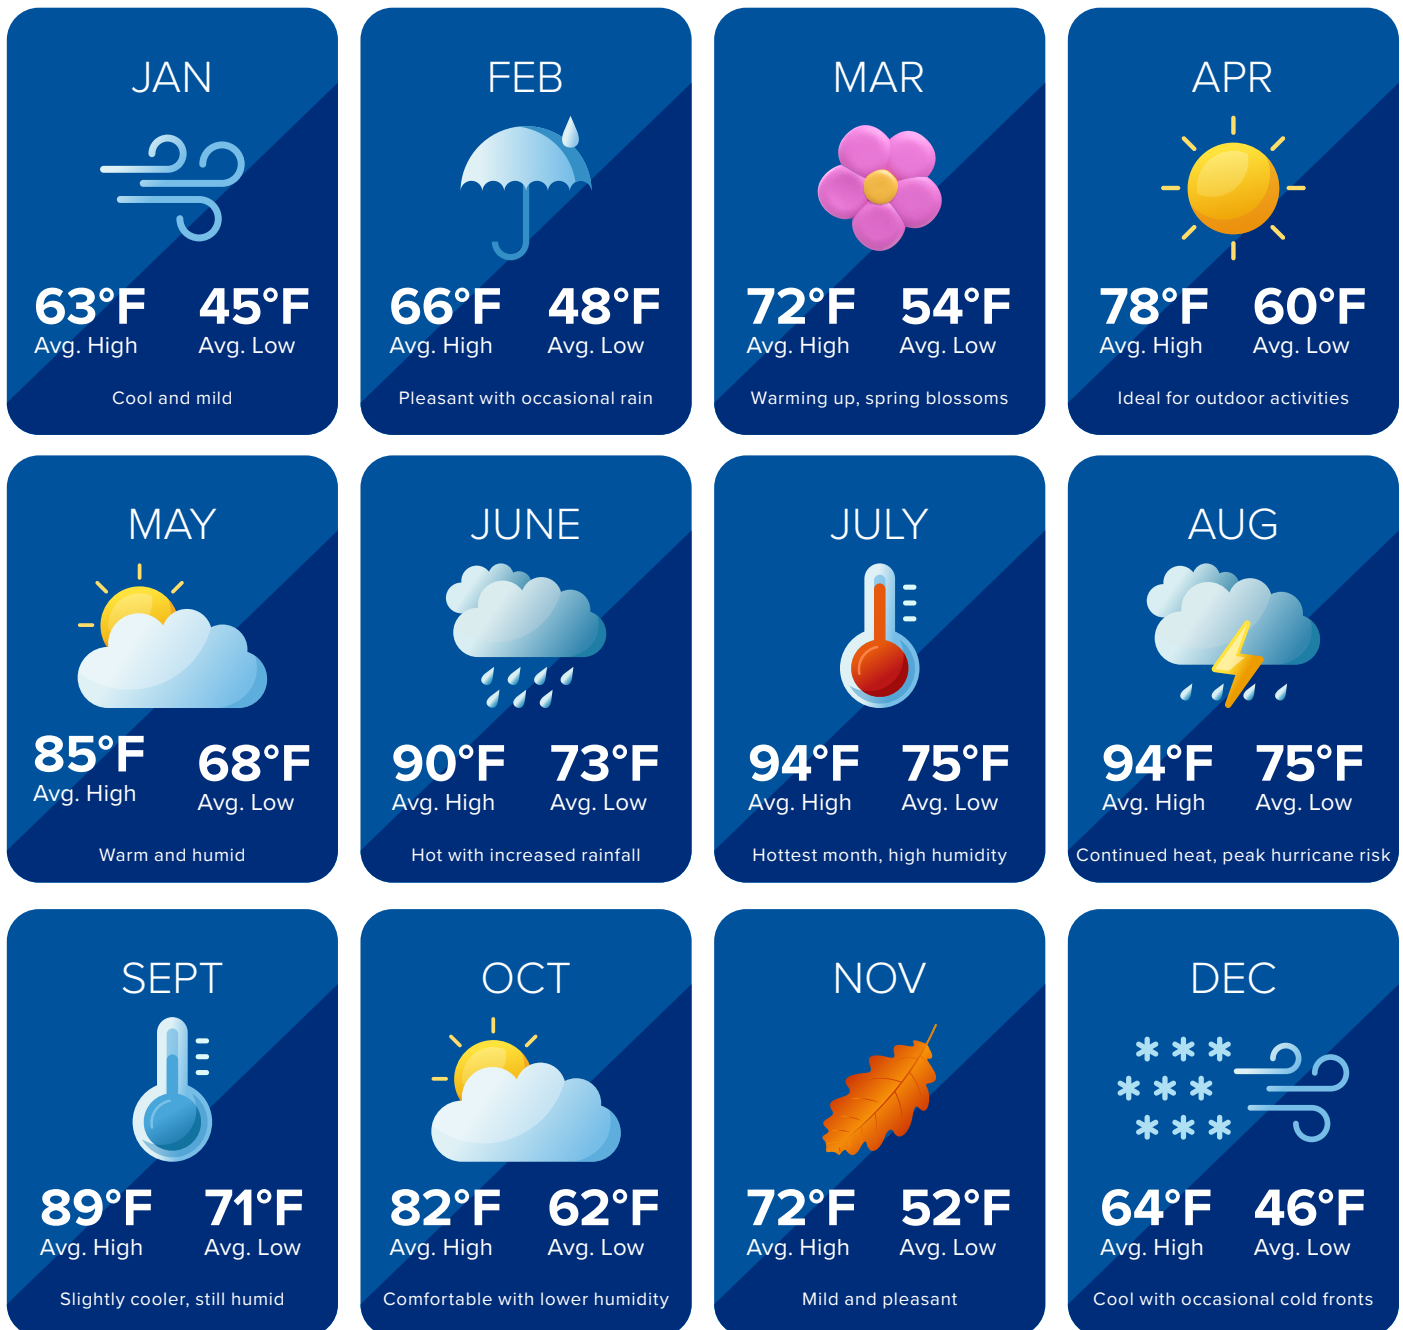

common—especially in late spring and early summer—and the city's Gulf Coast location places it within the Atlantic hurricane season (June through November).

During the summer, Houston can experience extended periods

of cloudiness due to frequent thunderstorms and tropical storms. This can result in fewer hours of sunshine per day. In contrast, during the fall and winter, Houston generally experiences clearer skies and more sunshine.
